Program

This hands-on training program includes proper use of implant torque wrenches, open & closed tray impression techniques, an overview of off-the-shelf and custom abutments and when to use each. All hands-on participants will restore implants on models, including using a torque wrench to attach abutments onto implants, and fill trays and take impressions on models.

Course Learning Objectives

Participants who complete the seminar will have a better understanding of the following dental implant topics:

- Review of restorative "Parts & Pieces" and procedures
- Open-tray vs. Closed-tray impressions - which to use, how to take each
- Cemented vs. screw-retained restorations
- Off-the-shelf vs. custom abutments
- Thorough patient screening and selection overview

Speaker:

Dr. Saeid Malboubi is a Board Certified Periodontist. He graduated from Boston University with a Masters of Science in Oral Biology and a Certificate of Advanced Studies in Periodontology & Implant Surgery. He is currently an Associate Professor at the UCSF post Graduate Perio department. Dr. Malboubi has over 16 years of experience specializing in periodontics, Implantology and oral plastic surgery. He practices in Southern and northern California and also lectures nationwide.

2 CE
CREDITS

This program is designated for **2 Continuing Education Credits**, and has been planned & implemented in accordance with the standards of the ADA CERP through joint efforts between Dr. Saeid Malboubi and Neoss. Neoss Inc. is an American Dental Association Continuing Education Recognition Program (ADA CERP) Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individuals, courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Tuition & Cancellations: The evening's course lecture & dinner are provided at no charge to all participants. We reserve the right to cancel the course at any time if an insufficient number of participants register.
